**BOOK YOUR PLACE AT THE ONLY
CONFERENCE FOR PROFESSIONAL
DAIRY FARM STAFF!**

Back for 2022 and following the lifting of covid restrictions we can at last bring you the 10th National Herdpersons Conference!

For a decade we have been bringing internationally renowned respected speakers to educate, inform and inspire the people on the front line of the dairy farming industry. Having to cancel in 2020 as Covid took hold was a sad but necessary decision, now as the country emerges from restrictions we look forward to meeting once again! This years theme - chosen by delegates at the 2019 event - celebrates the professionalism and importance of good stockmanship - a true craft and the very basis of good herd management. Stockmanship - are you born with it? Can it be taught? Can you learn a new approach? How can we minimise stress? Our speakers will answer these and other questions along with the industry updates, new techniques and approaches and products to ensure maximum performance of the herd. Whether an experienced stock person or new to working with animals, you are sure to bring something home from the

National Herdsmans Conference 2022!

Whatever your size or system, whether you are a herd manager or relief milker, the national herdsman conference is for you. Don't delay, book today!

“Craftsmanship of Stockmanship”

INSPIRE MOTIVATE EDUCATE NETWORK ENTERTAIN

These are the aims of your conference.

With its mix of international speakers from industry and farm, practical sessions, first class hospitality and entertainment and the opportunity to network with dairy experts and fellow herd staff, the National Herdsmans Conference 2022 is the place to be.

Our 10th Conference!
We are extremely pleased to have reached the first major anniversary in the life of the National Herdsmans Conference - now a firm date in the industry calendar!
